

VIRGINIA'S
**Additive Manufacturing
& Advanced Materials**
TECH HUB

**CONFERENCE SPONSORSHIP
OPPORTUNITIES 2025**

WHY SPONSOR VIRGINIA'S AM² TECH HUB?

Virginia's Additive Manufacturing and Advanced Materials (AM²) Tech Hub is an industry-led consortium of over 50 partners dedicated to growing and accelerating manufacturing in Virginia and across the U.S. Our goal is to make the New River Valley-Southern Virginia region a hub for additive manufacturing and advanced materials solutions, connecting companies to resources for adopting these technologies and developing a skilled workforce to help grow their businesses.

Your sponsorship of our AM² Conference will further this mission while offering significant benefits to your organization:

- Network with C-suite industry leaders, technology experts and researchers, and economic developers seeking to grow advanced manufacturing in Virginia
- Exhibit your latest products and technologies
- Enhance visibility and recognition for your vision, mission, and initiatives through tailored sponsorship packages
- Share feedback and guide next generation of AM² technology and advanced manufacturing solutions

ABOUT AM² CONFERENCE

Virginia's Additive Manufacturing and Advanced Materials Hub is hosting a conference to connect the broader manufacturing ecosystem and discuss opportunities and challenges in advancing additive manufacturing and advanced materials technologies.

Key features of the conference include:

- Showcasing regional advanced manufacturing strengths and opportunities
- Connecting manufacturers with resources for talent development, business scale-up and technology adoption, and lab-to-market commercialization
- 10-year roadmap presenting a path to prosperity for Virginia's AM² hub

Programming will include technical assistance workshops, company-faculty IP development speed-networking sessions, resource provider showcases, and targeted strategy panels on topics such as technology adoption.

Who's Attending?

- Manufacturers in VA and beyond
- AM² consortium members
- Local economic development
- Higher education research faculty/PhDs
- National and state industry groups
- News and industry media
- Fortune 500 representatives
